

“We live in a culture of secrecy, where hiding and lying are accepted as natural, even though we don’t like it. We want honesty, transparency, and authenticity in our loved ones, our groups and organizations, and in our own self so we can reach the heights of our capacity. By clinging to the opaque reality we stall our evolution.”

## Dear Editor/Producer,

***Transparency: Seeing Through to Our Expanded Human Capacity*** is the next book in Penney Peirce’s award-winning, visionary series of guidebooks on personal and societal transformation from Beyond Words/Atria/Simon&Schuster, following *The Intuitive Way*, *Frequency*, and *Leap of Perception*.

*Transparency* is a book about letting go of everything and receiving everything. It’s about the irony of having no ego and an amazing personal presence, of not being intellectual and being a genius, of not needing to rescue the sufferers of the world and being a powerful force for healing. This book is about how becoming transparent empowers the good while seeming dangerous, how it lets you be empty and spacious while being full, and free while also belonging. This is a book about making enlightenment normal.

*Transparency* helps readers understand how we’ve come to live in an “opaque reality” created by collective beliefs based on fear. In the opaque reality we forget our connection to each other, our soul, and the divine—and feel isolated and stuck. We suffer. To become transparent we must dissolve the “clutter” that’s in the way of our natural, frictionless state, which always exists underneath the commotion. It’s about remembering the truth of a more enlightened way of living, and returning to it. The book helps readers clear their subconscious blocks in a rapid and thorough manner, identify the feeling state of transparency, and have the courage to be vulnerable, authentic, exposed, and available.

The book helps readers understand that transparency functions *horizontally* in the physical world, and in these end times of the Information Age, that’s mainly about fluidity and freedom of information in business and government. As we shift into the Intuition Age, transparency also functions *vertically* between the physical and nonphysical worlds—and today, the frequencies of the two realms interpenetrate more fully than ever before. There is constant and immediate translation between the “inner blueprint” of a reality and the outer form, so when you dissolve your clutter, your optimal reality (destiny) materializes without distortion, direct from the soul’s wisdom.

*Transparency* helps readers learn that when you’re transparent, there is great power in being seen for all of who you are. Secrets, lies, and hiding are no longer functional. Honesty, simplicity, and true humility produce genius. And, when you’re transparent, you are empowered to see through situations that blind and confuse others. You have X-ray vision. Clarity in yourself equates to clarity everywhere.

*Transparency* also addresses the knotty issue of living through this chaotic “bridge time” between the opaque reality based on old linear perception (the Information Age) and the transparent reality based on spherical-holographic perception (the Intuition Age). When you’re becoming transparent and others aren’t, negative repercussions and reprisals can influence you to backslide, making it a challenge to be a thought leader.
